RummyCircle is an android game that has taken a traditional rummy card game, online. The best part is that you can play it on your smartphone and start playing rummy from anywhere. You to millions of players on this leading rummy platform, and play Indian rummy with 13 cards. Play rummy with avid rummy players and test your rummy strategies with them. Gameplay: At RummyCircle, you will play with 13 cards where you group them to form a clean sequence, impure sequences, and set to win. This is the prerequisite for rummy on this android platform. Here you can also use printed and joker with joker with the joker to form sequences and sets. The game starts when 13 cards are dealt to the players. You quickly sort the cards into viable sequences and sets. With each round, discard unwanted cards in the deck and pick cards from either the closed or open deck. Your goal should be to form a winning hand before your opponent declares. So what's a winning hand? It must have a clean sequence; This is a group of cards from the same suit in order. You cannot use any kind of joker to do this sequence. The perfect example is 5♥ 6♥ 7♥. Then, the winning hand may contain an impure sequence, but it is not mandatory. It meets minimum two-sequence requirements that you need to declare. It is a combination of three or more cards of the same suit, and you can use the joker or the printed joker to form this sequence. This is a good example, 5♠ Q♥ 7♠ 8♠ PJ. Finally, you can include a set to complete your hand, but it is not mandatory. A set is a combination of three or more cards of the same value, but from different suits. Here you can use wild card and printed jokers to form sets. One such example is, 5♣ 5♠ PJ. As soon as you arrange 13 cards in valid two sequences that include 1 pure sequence and multiple groups (sequences or sets), you can declare and win the game. Editorial review: RummyCircle is the most played online card game in India. The file size is easy, it's easy to download and you don't have to do any more downloads during the year. If you look at most android games, there are frequent updates to the games. The size that can be downloaded may be but over time, it increases when there are new updates. This eats into your Memory. Challenges: One of the challenges of rummy is to form a clean sequence right at the beginning. As mentioned in gameplay, you can not declare without. So if you think you have a bad hand and there is no redemption from it, you should fall off the table. It saves you from losing a lot of point score. Rummy is a game of skill and one of the skills to learn is to guess your opponent's hand. If you know, you know what cards he or she wants, so you hold on to them. This step comes with a lot of practice and over time. Quick tips: To guess your opponents' hand, keep track of cards they discard and pluck from the open deck. If they pick up a 6♥ then they form a sequence with it. So you avoid throwing cards that will help them with their grouping. Understand and remember the rules of the rummy. This will help you play diligently and wisely. You will understand the tricks your opponents use too. Keep your intermediate cards as they are useful in forming multiple combinations. For example, a 6 of any suit can make a sequence of 4, 5 or 5, 7 or 7, 8. An ace can only make a sequence of 2, 3.
